	12:00	13:00	14:00	15:00
		<div>check Site: Calmount Business Park CE</div>	<div>Lift check Site: Main Office</div>	
	<div>AHU check Site: Newman Building</div>		<div>Monthly Inspection of Tractors Site: Flat 12, Royal House</div>	
		<div>check Site: Calmount Business Park CE</div>		
		<div>check Site: Calmount Business Park CE</div>		

Note that within the monthly view, the calendar will expand to display up to ten jobs. If there are more than ten jobs scheduled for a particular day, you will be able to view all of these jobs by selecting the button highlighted below:

This button will open the daily view which will display all jobs for that day:

You can also search the Job Calendar by job number or job details by using the search bar which can be found next to the Day / Week / Month selector:

The Jobs Calendar has a date picker to the top-left of the calendar. The arrows can be used to scroll through the days / weeks / months, or you can use the drop-down date picker to pick a specific date:

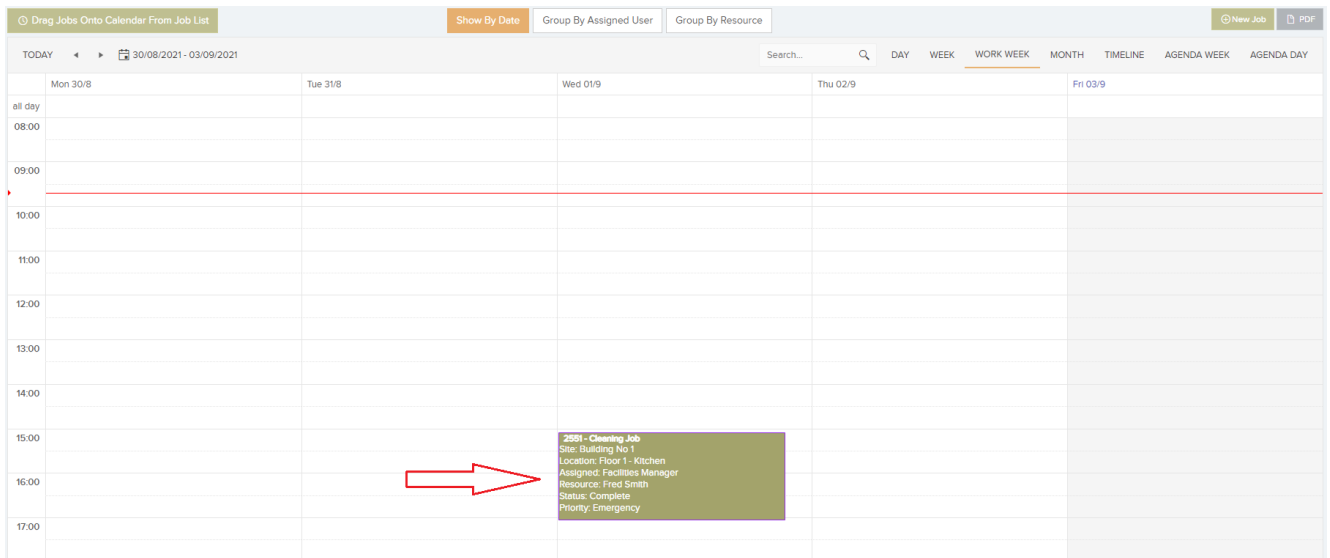

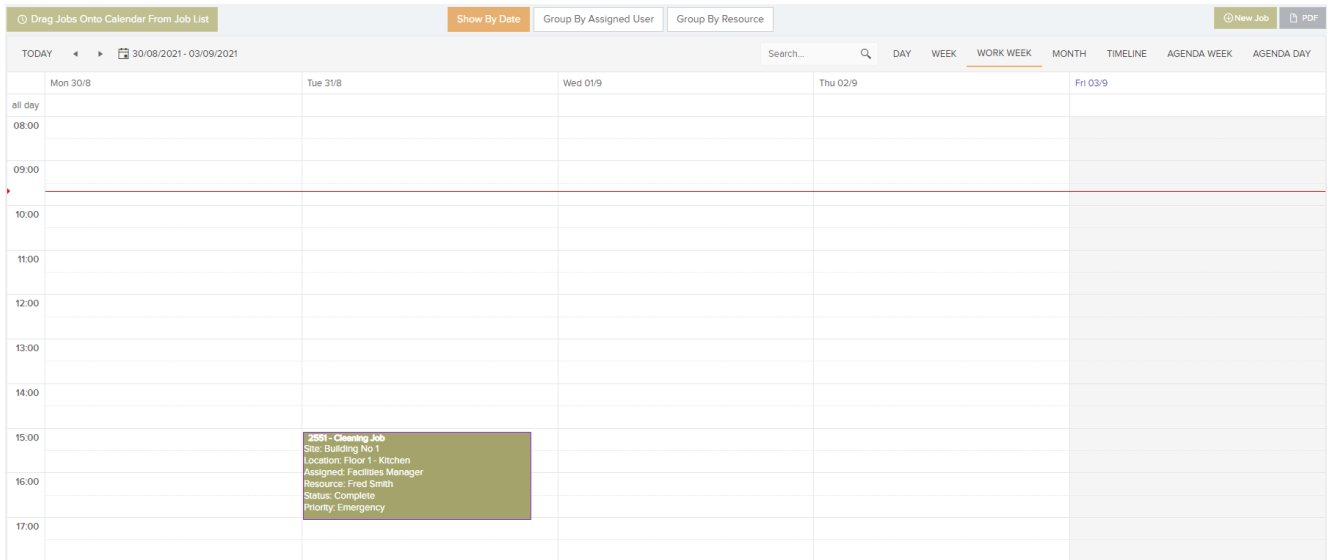

A new view option for the Jobs Calendar is the Timeline view. The Timeline view will display the hours in the day across the x-axis. If grouping by Assigned User or Resource, the names will be displayed down the y-axis:

The selected calendar view can also be exported to a PDF:

While viewing the upcoming jobs for a particular month, the Trackplan calendar utilises a highly configurable drag and drop design that allows you to view and modify jobs at the click of a button (**Note:** This cannot be done with planned jobs):

On top of being able to drag and drop jobs across the calendar, you can also drag jobs onto the calendar from the jobs list:

This button will open the jobs list at the top of the page:

This button will close the jobs list at the top of the page:

From here you can click and drag any of these jobs onto the Calendar:

Quick Actions

The new Quick actions button on the Tool-Tip will speed up the workflow by allowing the user to Unschedule, Instruct, Complete Job, Change Expected Date and a link to the Job Details Page.

Create jobs in the calendar / scheduler

You can now add a job from the calendar. There are two ways.

- There is a “New Job” button there which brings up a pop up window.
- Even better, you can double-click in a calendar cell, which will bring up the pop-up window. The new job created will slot right into the cell you double-clicked.
