

Personal Data Settings

Settings – Personal Data Settings allows the user to manage personal data associated to Sites or Jobs for GDPR purposes.

The screenshot displays two side-by-side settings panels. The left panel, titled 'Site Data Settings:', contains two rows. The first row, 'Remove Personal Data On Site', has a dropdown menu open showing three options: '<Please Select>', 'Remove Data From Selected Sites' (highlighted in blue), and 'Remove Data From All Sites'. The second row, 'Remove Personal Data from Associated Completed Jobs', is currently empty. The right panel, titled 'Job Data Settings:', contains a row for 'Retain Personal Data On Completed Jobs' with a value of 'Never Remove Job Data'. Both panels have a yellow bar at the bottom with a question mark icon and the word 'Help'.

These options are not Saved and work only once when the 'Remove Data' is clicked.

- **Remove Personal Data On Sites** – Select whether to remove personal data from All Sites or only from selected sites..
- **Remove Personal Data from Associated Completed Jobs** – Set if the personal data for any jobs associated to the sites chosen must be removed.
- **Retain Personal Data On Completed Jobs** – Set how long to wait after a job is completed to remove personal data.
