

# Planned Maintenance Calendar

The *Planned Maintenance Calendar* is a calendar generated from all Planned Schedules. It can be ordered by Day, Week, Work Week (excluding weekends) and Month.

You can also display a calendar based on Date, the Users or by the Resource:

Show By:

Another feature is the *Agenda Week* and *Agenda Day*. This provides a clear overview of the planned schedules based on the day or week. The Calendar can also be downloaded as a PDF, as shown below:

The calendar can also be filtered by selecting one or more of the filtering options at the top of the page:

|  |   |                                       |   |  |  |
